Under its present management there is no doubt that it will continue to prosper, and in the language of one who fully understands its perunnary condition, we shall wake up some morning and find the stock worth par. find the stock worth par

At the Second Board the inquiry was active and prices bigher. Eric improved | per cent. The Bonds were in demand at full prices. The second Mortgages sold at 1001, and the Incomes were stiff at 914. Some parties are operating to the Incomes for a rise, and in the present easy state of the Money market there is no sufficient reason that a perfectly safe 7 per cent security should be soil. ing at 917 with 1 per cent interest accumulated It is only necessary that capitalists should compare this security with others which are selling 19 or, 15 per cent higher, to discover that there is no intrinsic difference. The second Mortgages, like the first Mortgages, are nearly all absorbed. Morris was buoyant and sold at 18]. Long Island was also firm. Madison and Indianapolis was firm, The business of this road is in a very favorable condition.

Excess over 40 per cent...... \$5,948 67 The business of this Road will soon be largely increased by the completion of the other roads connecting with it. The Knightsville Road will be in operation this week, and the Ballefontaine, to Pendleton to-morrow. Both these will be valuable tributaries to the Madison Road. The busi. ness of the Rushville Road is rapidly increasing.

There is considerable damand for Land Warrants, which will be largely increased when the decision of the Department in relation to the Bounty Bill Warrrots reaches the West. The marget

quantity could be purchased of the large holders below \$140.

There having been rumors of the failure of Messrs. Henley & Hastings of Sacramento City we have the best authority for stating that the rumors are without foundation. A letter from Sacramento states the credit of that house is unques-

The payments under the Appropriation bills continue to be considerable, and will so continue until the balance in the Sub-Treasury is considerably reduced. The payments to day are \$288,489, and

tal of \$210,000. The Farmers and Mechanics Bank have also deposited \$50,000 with the State Treasurer, and will deposit \$50,000 more soon.

The best feeling exists in relation to the Toledo, Norwalk and Wellington Railroad, which is a link of the Lake Shore Road from Erie to Toledo .-Wellington is on the Cleveland and Cincinnati Road, and this route is represented to have several advantages over one along the shore of the Lake. At a meeting lately held at Toledo, it was stated that the people of Loraine, Huron and San dushy Counties had pledged \$300,000. Sandusky County, it is thought, will subscribe \$100,000, and the City of Toledo \$50,000. A director in the Michigan Bouthern Railroad was present and briefly explained what that Company were doing to forward this great Eastern and Western con. nection. It is the intention of that Company to complete its road to Chicago during the year 1850; and he gave it as his opinion that the great Western line of roads would be completed to Galena in
